Career Objective

I am a 14-year-old self-motivated individual who began coding during the pandemic in 2020, Initially, it was just a hobby but later on it became a love for technology and problem-solving. Throughout the years, I have worked on many projects with **Python, Java, JavaScript, TypeScript, HTML, CSS, and also Dart**. Besides that, I have experience working **with frameworks such as Django, Angular, React, Flutter, Flask, and Spring Boot.** I'm always ready to learn more, work with other people, and tackle new obstacles that help me evolve as a developer. At the moment, I am looking for places where I can use the knowledge I have, learn more about the industry, and to create useful products.

Projects

❑ **Running Projects**

1) Doctor Booking Website

Technologies: React, JSON, React-Router, localStorage

- Developed a full local doctor appointment system to manage patient records.
- Implemented graph features to show how much money Users have spent on Doctors.

Technical Skills

- **Languages**: Python, Java, Typescript, Dart, SQL, HTML, CSS, JavaScript.
- **Frameworks**: Django, Angular, Flutter, React, Flask, SpringBoot.
- **Databases**: MySQL, PostgreSQL, MongoDB, Supabase.
- **Tools & Technologies**: Docker, Linux, NeoVim, Git, Maven, Gradle, RESTful APIs, Firebase.
- **Version Control**: Git, GitHub.

Certifications and Training :-

1) Web Development using MERN Stack.

Institution: Programming Hero

Duration: 6 months

2) Udemy 100 Days with Python

3) Mastering Spring Boot 3 and Spring Framework

Educational Qualifications

Currently Studying at Class 8

School : Monipur High School and College (Branch – 3 Shewrapara)

Soft Skills

- Fast learner and adaptable to new technologies
- Problem-Solving Mindset
- Self-Motivation & Curiosity

Computer and Tech Skills

- Ms Office Suite
- Google Workspace
- Figma
- Canva
